Bug Report 1 - TC05

Description: Expecting program to not include file from originals into finals, IndexError message instead.

Steps to Reproduce:
- Create a valid file in the originals folder
- Create an allowlist file
- Leave allowlist file empty
- Run program

Expected Result:
Expect to see the final file empty

Actual Result:
The following error message - IndexError: list index out of range

Priority: Medium
Severity: Medium

Bug Report 1 - TC06

Description: Special Characters aren't being processed in finals file.

Steps to Reproduce:
- Create a file in the originals folder with a special character in the name e.g. Zeta-Jones
- Include name in same format in allowlist
- Run program
- See file name in finals folder

Expected Result:
Expect to see the finals folder with the exact details from originals

Actual Result: The name of the file in finals is changed to remove the special character, e.g. from Zeta-Jones to ZetaJones

Priority: High
Severity: High
